Higher Education Emergency Relief Fund Emergency Cash Grant Policy for Distributing Funds to Students

The average amount of each grant will be determined by dividing the available funds, by the number of students affected by the Coronavirus. $\$29,352 \div 22 \text{ students} = \$1,335$ per student.

We opted to distribute the funds evenly because we're such a small school and all students have been affected by the Coronavirus.

Upon issuance of the checks, students will sign that these funds will be used on one or more of the expenses listed on the Certification and Agreement document or "food, housing, course materials, technology, health care and child care expenses". Students will also be given the option to forego the payment if they feel they do not have the need.
